</table>
An Overview of the OpenNIView

Application Versions

Version 1 Grayscale Depth Map and XML
  Updating the Panel
  From Depth Values to Image Pixels
  Rendering the Depth Map

Version 2 Grayscale Depth Map Without XML

Version 3 Camera Image Map
  Updating the Image
  Drawing the Image

Version 4 Infrared Map
  Updating the Image
  Creating a Grayscale Image

Version 5 A Colored Depth Map
  Creating a Color Model
  Creating the Depth Map
  Rendering the Image

Version 6 Combined Depth and Image Maps
  Creating a Color Model
  Initializing the Context
  Updating the Panel
  Rendering the Images

Chapter 3 A Point Cloud for Depths

An Overview of the PointCloud Application

What Is Java 3D?
  The HelloUniverse Scene Graph
  Java 3D Documentation and Examples

Creating the 3D Scene for PointCloud
  Lighting the Scene
Updating the Skeletons 104

Bringing a Skeleton to Life 105
Creating a Skeleton Scene Graph 105
Building Joints 109
Building Limbs 111
Updating the Skeleton 113
Modifying a Skeleton's Visibility 113
Deleting the Skeleton 114

Creating a 3D Joint 114
Creating the Joint Subgraph 114
Updating the Joint's Position 118
Smoothing a Position 120
Handling Joint Visibility 121

Creating a 3D Limb 121
Creating the Limb Subgraph 122
Updating the Limb 125
Adjusting Limb Position and Length 127
Changing the Limb's Orientation 129
An Interpolation and Cross-Product Problem 131

Chapter 6 The Tilt Motor, LED, and Accelerometer 133
Controlling the Kinect's Motor, LED, and Accelerometer 133
A Quick Introduction to USB 134
Becoming a USB Detective 136
Installing USB Support for Java 137
Installing libusb-win32 138
Installing a libusb-win32 Driver for the Kinect Motor 138
Installing and Testing LibusbJava 140
Using a Modified LibusbJava 141(1)
Motor Protocol Discovery 142(1)
Setting the Tilt Motor, LED, and Accelerometer 143(5)
  Setting the LED Status Light 146(1)
  Tilting the Kinect 147(1)
Reading the Motor's State 148(4)
  What Is the Motor's Current Status? 149(1)
  Reading the Tilt Angle 150(1)
  Reading the Accelerometer 151(1)
  Reading the Kinect's Speed 152(1)
Detecting Tilting Limits 152(1)
Testing the MotorCommunicator 152(3)
Chapter 7 NITE Hand Gestures 155(24)
  An Overview of the GestureDetect Application 155(1)
  Focus Detection 156(1)
  Gesture Tracking 157(1)
Detecting Gestures 158(9)
  Initializing OpenNI 159(1)
  Processing Hand Events 160(2)
  Processing Gesture Focus Events 162(2)
  Initializing NITE 164(1)
  Processing Session Events 165(2)
Detecting Hand Points 167(11)
  The Wave Detector 170(2)
  The Push Detector 172(1)
  The Swipe Detector 173(2)
  The Circle Detector 175(2)
  The Steady Detector 177(1)
Filter Objects 178(1)
